

To Whom It May Concern:

Please discontinue your efforts to stop XM Radio from broadcasting local traffic and weather reports. My local AM station provides some weather and traffic information but it is incomplete and untimely. I have been looking for several years into a reliable service that would provide robust weather and traffic information for my local area and XM Radio is the only service to meet my needs. I have tried AM radio, the internet and info on my cell phone. None of them come close to the quality and accuracy of the current XM service. I feel that the XM Radio weather and traffic broadcasts improve my safety while I am on the road.

Please feel free to contact me if I can provide any additional information.

Sincerely,

Mark Nielsen
